## OUR 2022 Annual Report

Every year, the Office of Undergraduate Research publishes an annual report. This report is for faculty, staff, students, administrators, donors, and supporters, to learn more about how we lead on a high impact practice and experience for undergraduate students: undergraduate research. In this annual report, you will learn more about how the OUR is fostering retention, persistence, and completion; supporting the Utah Experience; enhancing the U's holistic student success system; reimagining general education as exceptional education; and enhancing teaching, learning, research, and innovation environments. Final report to be published this month.
